**(707) 725-4398**

[www.plumbconstruction.biz](http://www.plumbconstruction.biz)

It starts by entering your personal login information at [www.plumbconstruction.biz](http://www.plumbconstruction.biz). From there, you have access to the following areas and more.

**Selection Sheet... See choices and stay on schedule**

The site organizes selection items on a single color-coded list, displayed with all of the pertinent allowance, pricing, and other helpful information. Upcoming selections are automatically flagged to help keep you on schedule. With just a few clicks, you can enter your choices.

**Expenses & Change Orders... Eliminate "sticker shock"**

Every decision made on the selection sheet is automatically reflected on the expenses page. With a single click, you can see how each of your choices have affected the final price of your project. If you need to approve a change order, you can do it electronically, saving you the time and hassle of faxing or mailing signatures to your builder.

**Milestones... Understand the next steps**

Every construction project is an involved process, so the site will show you a list of major milestones on your project. You can check the progress made so far and see what steps are coming up next.

**Questions List... Never lose answers to your questions**

Over the course of a project, you will have lots of questions, and this site will help you keep all of those questions, and your builder's answers, organized and in one place. Simply enter your questions here, and your builder's responses will be listed right next to them.

**Builder's To-Do List... See items as they happen**

Your builder may choose to post some to-do items on the website. While you cannot add items to this list, viewing it can help give you an idea of how things are moving along on your project.

**Comments, Photos, and Files... Stop jumbled e-mails**

As construction progresses, you will need to have "conversations" about certain items, like asking for clarification on a selection or providing an update on a warranty request. Rather than using e-mail, you can add comments to many of the items in the site. Comments group these conversations together with the items to which they relate, which keeps information organized and available to everyone, cutting down on misunderstandings. You and your builder can also attach photos and files.

**Warranty List... Easily track loose ends**

Once your project is complete, you can submit warranty requests online. You can come back to the site to check the status, add comments as necessary, and then verify when they are complete.

**E-mail Updates... Let new information come to you**

You can access the website at any time, but if there is something updated that you need to see on the site, you will also receive an e-mail each morning letting you know.

▲ The questions list saves all of your questions, and your builder's answers, in one, easy-to-find place.

▲ The selection sheet shows real-time info and prominently marks upcoming selections to keep everyone on schedule.

▲ The expenses page automatically shows how selection choices and change orders affect the final project price.
